MAY HEALTH EDUCATION AND WELLNESS PROGRAM—HIGH BLOOD PRESSURE SCREENING: High blood pressure is often called the “silent killer” because hypertensives have few, or often, no symptoms. Millions have the disease, but are unaware of it. High blood pressure cannot be cured, but it can be controlled. Blood pressure checks are offered to all employees on a walk-in basis, anytime, at the OHF (Industrial Area), LAC (LC-39/MFF Area), and CCAS medical clinics during all working hours. If you have any questions call Carol Roth at 867-3414, or 867-2026. On-site blood pressure checks will also be conducted as follows:
